Simply place your order online

Step 2

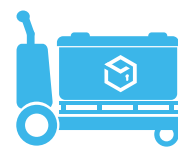

We deliver your SpeedPod when you need it

Step 3

You pack and lock your SpeedPod

Step 4

We collect when your ready

Step 5

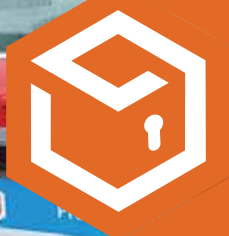

Insured, secure, climate controlled storage

Easy Assembly

Even someone with zero DIY skills can assemble a Speedpod in less than 30 seconds. Have a look at our YouTube video and you will see it really is very simple.

The self storage Pod is supplied flat-packed. They assemble in seconds into a large strong crate. No tools needed and so simple anybody can put one together.

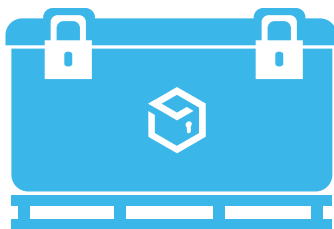

SPEEDPOD SELFSTORAGE

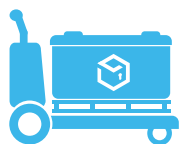

Large Self Storage Space

Speedpods are BIG. They measure 1.2m x 1m x 1m or 1.2 cubic metres. In imperial that is 4 feet x 3'3" x 3'3" or 42 cubic feet.

Think of them as a giant safe deposit box. Each pod holds approx the same amount of goods as the back of a medium sized estate car. They can also carry a lot of weight.

You can safely load your self storage Speedpod with 1000kg, yes that's a ton.

Want to fill it with bricks? No problem! Be careful with gold bars though – they are too heavy..!

Popular Speedpod Uses:

- Wine Storage
- Moving House
- Decluttering House
- Museum Storage
- Educational Storage
- Local Government
- Book Storage
- Asset Protection Storage
- Small Business Storage
- Document Archiving

Strong

The self storage pods are made of high density plastic which is far more durable than wooden crates. They are waterproof so you can safely leave them outside in the rain. They are also dust proof and meet all International shipping requirements.

- Tagged & Tracked - Each pods is uniquely bar-coded and fitted with a RFID tag
- Waterproof - The Pods are designed to be rain and dustproof.
- Secure - Using the supplied locks the Speed-Pods are tamper proof.
- Stackable - You can stack up to 5 SpeedPods on top of each other quite safely.
